Introducing

**ariessence**  
pure PDGF+

powered by PDGF,  
a potent growth factor  
that's transforming the  
landscape of skincare  
and natural health.

*New Life Aesthetics*

At New Life Aesthetics, we're committed to staying on the cutting edge of science to bring you the most effective, advanced treatments available. Today we're proud to introduce Ariessence Pure PDGF, a regenerative skincare technology. Ariessence has the power of Platelet-Derived Growth Factor (PDGF), a naturally occurring protein essential for cell growth, healing, and tissue regeneration. Delivered in a pure form, it jumpstarts your skin's natural repair process at the cellular level. PDGF stimulates collagen and elastin production, while enhancing skin tone, texture, and elasticity. It gives your body an all-natural response to creating collagen. This helps diminish the signs of aging. PDGF can be used post-treatment to penetrate microchannels created by lasers or microneedling. Our providers are also able to inject PDGF under the eyes for improvement in texture, color and volume of the delicate skin, and in the scalp for hair restoration. Your skin deserves the most advanced care science can offer and we can't wait for you to see the PDGF results.
