

Book Now With Heather!

Book now with Heather! Talented, dedicated, experienced and nurturing... just a few words to describe our incredible provider, Heather. As a Registered Nurse, Heather takes great pride in collaborating with her patients to help them reach their aesthetic goals. She is not only an expert in injectables and lasers, Heather is also extensively trained in Coolsculpting Elite and hair restoration. Patients love her gentle touch, but more importantly their results! Call today to book your appointment with Heather 919-521-8282.

All New and Natural EZ PRF Gel

We are excited to introduce our latest treatment to keep you looking younger in the most natural way! PRF Gel is an all natural process using the body's own powerful proteins, instead of relying on lab-manufactured components. It can be used for volume enhancement and symmetry adjustment, as well as skin rejuvenation. EZ PRF Gel stimulates collagen production, reducing wrinkles, fine lines, and acne scars. The blood albumin is heated in a process while the PRF liquid is chilled. Once at temperature, the two are mixed and they form a gel that is injected much like a filler. The gel will add subtle volume as longer lasting growth factors take effect in the injected area. The benefit to the skin is tremendous. It's perfect for tear troughs, crepey skin of the neck, hands, chest and the fine lines above the lips. Book your appointment today!

Add Summer Sun Protection!

Beat the damage of the summer sun with our Anti-Ox CE Fe Serum. When worn under sunscreen, Anti-Ox CE Fe enhances photo-protection of the skin by 8 times. It also reduces sunburns by 96%. This medical grade product boosts collagen production and reduces wrinkles while reversing the signs of aging. The formula features Ferulic Acid and Ascorbic Acid which help to fight free radicals and provide maximum protection against environmental damage. It's one of our most popular products and it's 20% off this month! Call today for curbside pick up.

Juvederm VOLBELLA® XC

Give Me Lips!

Subtle, yet gorgeous! Heather created the perfect pout with Juvederm Volbella. Just a little extra volume goes a long way. These soft, natural results are exactly what our client was trying to achieve. As we age, our lips slowly become thinner. This is caused by the breakdown of fat pads underneath the skin, loss of boney support and loss of collagen in the skin of the lips and around the mouth. Lip filler can help add height, projection and balance to give a more youthful appearance. We keep you comfortable during the treatment by offering anesthesia. Lip filler typically lasts about 12 months. Book your appointment today!

But First, Botox

Botox can be a little confidence boost in a bottle! It not only smooths fine lines and wrinkles, it prevents new wrinkles from forming. Botox diminished the wrinkles around this patient's eyes and forehead giving her a brighter, more refreshed look. It softens lines between the eyebrows, on the forehead and crows feet. Botox can provide a non-surgical browlift, smooth neck bands and slim the jawline. Botox temporarily relaxes facial muscles that cause the wrinkles and fine lines. Ask about our New Life Aesthetics Botox Membership program. You'll save each time you receive Botox and have access to savings on treatments and products. Call today 919-521-8282.

Join Us In Helping Others

This month we are highlighting a non-profit organization that helps women who are victims of domestic and sexual violence. InterAct is the only provider of domestic violence and sexual assault services in Wake County. InterAct is dedicated to ending the cycle of domestic and sexual violence by saving lives, rebuilding lives, and securing safer futures for victims and survivors and their families. This non-profit organization provides 24-hour crisis hotlines, emergency shelter, court advocacy, community outreach programs, counseling, youth services and so much more. Through programs such as crisis intervention, safety planning and emergency shelter, InterAct provides help to more than 60,000 clients each year.
