INGREDIENT HIGHLIGHTS

Lactic Acid 12%, Vitamin E (Tocopheryl Acetate), Napol Cactus, Sunflower Seed Oil, Allantoin

L-HYDRA MOISTURIZER

DESCRIPTION

L-Hydra Moisturizer is formulated with a balanced blend of Alpha Hydroxy Acids, in a rich, emollient lotion, to provide immediate moisture and gentle exfoliation to treat symptoms associated with severely dry skin conditions. Fruit acids blended with rich emollients help eliminate flakiness as it sloughs away scaly, dry patches associated with Keratosis Pilaris and other dry skin conditions. The combined power of cactus and yeast extracts reduces irritation caused by the Alpha Hydroxy blend. Each use leaves skin feeling soft, smooth and hydrated all day.

BENEFITS

- Relieves flakiness and redness by sloughing away scaly, dry patches
- Moisturizes skin leaving it feeling soft, smooth and hydrated all day
- Contains 12% Lactic Acid to provide immediate moisture and gentle exfoliation
- Stimulates cellular regeneration
- Eliminates flakiness as it moisturizes severely dry skin

DIRECTIONS FOR USE

- Apply evenly over affected areas and rub in thoroughly. Use twice daily or as directed by physician. Temporary stinging may occur upon application to abraded areas or to individuals with sensitive skin. Wait 20 minutes after shaving before applying.

INGREDIENTS

- Water/Aqua/Eau, Lactic Acid, Neopentyl Glycol Dicaprylate/Dicaprate, Caprylic/Capric Triglyceride, Glycerin, Hydrogenated Soybean Oil, Pyrus Malus (Apple) Fruit Extract, Beheneth-5, Polyglyceryl-3 Stearate, Opuntia Ficus-Indica (Napol Cactus) Extract, Saccharomyces Cerevisiae Extract, Helianthus Annuus (Sunflower) Seed Oil, Phospholipids, Allantoin, Tocopheryl Acetate, Bisabolol, Ethylhexylglycerin, Hydrogenated Soy Polyglycerides, Dipotassium Glycyrrhizate, Hydrogenated Polyisobutene, Polyglyceryl-10 Stearate, Sclerotium Gum, C15-23 Alkane, Sodium Acrylates Copolymer, Disodium EDTA, Sodium Hydroxide, Phenoxyethanol
