

Your Eyes, Our Focus

Eye opening results from the Subnovii Plasma Pen! Tightening of the skin on the upper eyelids is exactly what this client was trying to achieve. Subnovii Plasma Pen is a non-invasive treatment that delivers surgical-like results for eyelid rejuvenation. It is the most sophisticated Plasma technology available. It's a customizable treatment that spot treats wrinkles, tightens skin and corrects brown spots. The low frequency plasma pen energy penetrates the surface of the skin and triggers a healing response. The technology causes cells to produce collagen and elastin. The most common areas treated include the neck, eyelids, lipstick lines, and tops of knees. Results continue to improve for about four months after the treatment. Call today for your appointment 919-521-8282.

Tri-Area Ministry Food Pantry

As we think about preparing our Thanksgiving meal this year, we encourage you to consider helping those less fortunate. This month New Life Aesthetics is highlighting and supporting Tri-Area Ministry Food Pantry. This non-profit, 100% volunteer run organization, has a mission to provide food to the food insecure in our community. Tri-Area Ministry was founded in 1988 and it's the largest food pantry in the Wake Forest, Rolesville and Youngsville area. It serves 800 families each month and 34-thousand people each year. Please consider donating or volunteering for this special non-profit organization this holiday season. Just click on the link below to see how you can help.
