

# Silicone Scar Treatment Gel

## RECOMMENDED SKIN TYPES

## DESCRIPTION

A silicone creamy gel formula creates a barrier to help prevent new scars from forming, while improving the appearance of existing scars. Ideal for superficial and post-procedure scars, as well as cuts, scrapes, and burns.

## BENEFITS

- ✓ Superficial scars are left visibly smoother and softer
- ✓ Provides a protective film over the skin
- ✓ Helps reduce the appearance of scarring

## DIRECTIONS FOR USE

- Apply a small amount to the affected area once daily or as directed by your physician. Do not apply to broken skin.

## INGREDIENT HIGHLIGHTS

- Dimethicone, Honey Extract, Panthenol, Squalane, Darutoside, Butyrospermum Parkii (Shea) Butter, Niacinamide
