## ELIMINATE LIP LINES

Turn back time by eliminating the lines around the mouth and chin with TRL. Tunable Resurfacing Laser is a full-field skin resurfacing solution. It targets fine lines, deep wrinkles, tone, texture, pigmentation and scars. It's perfect for those pesky lip lines that injections cannot treat. The laser energy forces natural collagen production. As the skin heals, smoother, tighter, healthier skin forms in its place. Call today for your consultation 919-521-8282.

## HEALTHY SKIN HYDRATION

Replenish skin moisture and restore your natural glow this winter with our Ultra Hydrating Booster. This medical grade hydrating serum contains hyaluronic acid and it's **20% off** this month. Ultra Hydrating Booster smooths, tones and restores elasticity in the skin while deeply hydrating. It also plumps the skin decreasing the appearance of fine lines and wrinkles. Ultra Hydrating Booster restores the skin back to its natural hydration and beauty. We offer curbside pickup on all New Life Aesthetics products.
