Fresh, Healthy Skin

Start off the new year with fresh, rejuvenated skin! Vivace RF Microneedling tightens skin while improving the tone and texture. It's a pain-free treatment with minimal downtime. The radiofrequency provides heat that stimulates collagen production. This leads to tighter, younger looking skin. While the results for skin tone and texture are almost immediate, the process of collagen regeneration can be seen in one to three months. Vivace RF Microneedling is recommended in a series of 3 to 4 treatments, spaced every 4 to 6 weeks. The results leave you aging gracefully, beautifully and elegantly! Call today for your appointment with Heather or Meredith 919-521-8282.

Breathtaking Bride!

Radiant skin on your wedding day takes preparation and planning. We are excited to share the results of our bride and mother-of-the-bride here at New Life Aesthetics! Abbie was married in October and she and Meredith spent months on their pre-wedding skincare and treatment regime. Abbie began with three Vivace RF Microneedling treatments spaced one month apart. The Vivace tightens skin and evens out tone and texture. It helps stimulate collagen production while leaving her with a healthy glow. She also received botox to decrease fine lines around her eyes and forehead. Abbie's daily skincare routine includes Beta Enzyme Cleanser, Needle Free Serum, HydraLite Moisturizer and HA Physical Tint SPF 44. Our mother-of-the-bride, Meredith, began her journey with Halo and BBL laser treatments for tightening and rejuvenating. She also did a SkinTyte series once every two weeks on her neck to reduce any skin laxity. Meredith used Botox for fine lines and filler to refresh and lift her mid-face. Her favorite products for the wedding preparation included Beta Enzyme Cleanser, Needle Free Serum and HA Physical SPF 44. Their dedication paid off with gorgeous results! Congratulations Abbie!
