

NEW LIFE AESTHETICS

July Newsletter

BRIGHTEN UP YOUR SKIN

Introducing our new Brightening Pads! They are 20% off this month and made with powerhouse ingredients including multiple antioxidants. The pads visibly improve signs of aging, reduce redness and irritation and provide anti-aging protection. Brightening Pads also improve the appearance of sun damaged skin.

SUMMERTIME SKINTYTE

The perfect summertime treatment is Skintyte! This treatment creates firmer, tighter skin while stimulating the production of collagen. This month you'll receive a complimentary Age Reversal Neck Cream with the purchase of your service. That's a \$76 value!

A STEAL ON SUNSCREEN

Put your best face forward and protect your skin this summer! We are offering 30% off all Powder Sunscreen with complimentary Setting Spray while supplies last. There are seven shades available. Don't forget we have curbside pick-up for all skincare products!

COMING SOON

We are eager to introduce the most sophisticated plasma technology available! The Subnovii Plasma Pen spot treats wrinkles and tightens skin. It offers a non-surgical brow lift and it targets lipstick lines, neck bands and crepe-like skin anywhere! Subnovii's highly controlled, low frequency emission means treatments are precise and healing time is reduced. More information coming soon!

ALL EYES

All eyes are on your eyes and forehead now with our new fashion accessory. If you are noticing fine lines and wrinkles around your eyes and the deep creases in your forehead, it's time for Botox. It temporarily relaxes the muscles that cause wrinkles, resulting in a smooth, refreshed complexion. With no downtime, Botox can make all of the difference in just one visit.

WELCOME ANNA

You'll be greeted by a new smiling face at New Life Aesthetics! We'd like to welcome our new clinical assistant Anna Mendez. Anna is a licensed esthetician with a passion for skincare. She will be assisting Meredith in clinical procedures. Welcome Anna!
