

# NEW LIFE AESTHETICS

October 2021 Newsletter

## BREAST CANCER AWARENESS

October is breast cancer awareness month. After treatment, breast cancer survivors can struggle with feminine changes. New Life Aesthetics is proud to offer Diva. This laser therapy resurfaces the vaginal canal, stimulates deeper tissue collagen production and improves blood supply. Diva's three main benefits are to improve vaginal lubrication and laxity and to diminish stress urinary incontinence.

LASER VAGINAL THERAPY

O-Shot®

## DYNAMIC DUO

New Life Aesthetics is dedicated to the care of women and we strive to help them feel beautiful inside and out. As a Board Certified Women's Health Nurse Practitioner, Meredith's experience sets us apart from other medical spa practices in the triangle. O-shot and diVa combined can be life changing treatments for women by helping to restore their femininity. These treatments work together to improve sexual function and incontinence. Make your feminine health a priority and call today for an appointment.

COMING SOON!

QWO®

*Stubborn cellulite can be a pain in the behind!*

We are excited to offer our newest treatment, Qwo. It's the first and only FDA-approved injectable for moderate to severe cellulite in the buttocks of women. **QWO is non-surgical and it's clinically proven to reduce cellulite. It is a series of 3 injection treatments spaced 3 weeks apart.** QWO is made from enzymes called collagenases. These enzymes are thought to target the structural causes under the skin, where cellulite starts, to release the fibrous bands, redistribute fat cells, and stimulate the growth of new collagen. Qwo injections take 10 minutes or less. Results can be seen in just a few weeks and are thought to be permanent.

BRIGHTEN YOUR  
SKIN

Now that fall is here, it's time to reverse that summer sun damage. A great way to start is with our New Life Aesthetics Skin Brightening Pads. These pads contain botanical skin brightening and soothing agents. They revitalize uneven skin tone and improve signs of aging. Skin Brightening Pads include Kojic Acid, Alpha Arbutin, Vitamin C, Bearberry, White Mulberry, Green Tea and Milk Thistle. These medical grade ingredients help reduce pigment, redness and irritation and reveal a more radiant youthful appearance. We offer curbside pickup for all products.

## CONTOUR WITH KYBELLA

Contour your neck and chin with Kybella. This non-surgical injectable reduces the appearance of a double chin. When injected into the area beneath the chin, Kybella breaks down the fat cells. Once the cells are destroyed, they can no longer store fat, making for permanent results from Kybella. This patient received two Kybella treatments resulting in a beautiful new profile. Call today for your Kybella appointment.

*Beautiful results after two Kybella treatments show this client's new profile.*

Our schedules are rapidly filling through the end of the year so call us today to schedule your next appointment in time for the holidays!

Our Dream Team is looking forward to serving you.
