HALO GLOW!

Fall is here and it's the perfect time of year for Halo! Halo fights wrinkles, sun damage, and visible signs of aging. This treatment improves tone and texture and increases collagen production. Halo is a minimally invasive technology that applies two different laser wavelengths to maximize your treatment's effectiveness. You'll see and feel the Halo glow without the risk, cost, and long recovery times of cosmetic surgery. The result is smooth, volumized, naturally radiant skin. Book your Halo appointment today!

DYNAMIC DUO

Get a jumpstart on natural collagen production by adding PRF as a topical to your SkinPen treatment. **Platelet Rich Fibrin** uses your own blood to retrieve platelets, white blood cells, fibrin and stem cells. It's a 100% natural procedure that increases collagen production. It's the perfect added boost to SkinPen. The two together will decrease wrinkles, fine lines and acne scars. SkinPen is safe for all skin tones and types, and results naturally improve over time. This minimally invasive treatment has little downtime with big results.

EMPOWER WITH EDUCATION

Our providers, Meredith Harris, NP and Heather Shelton Roberts, BSN, RN are always striving for the latest in education and training. They are passionate about educating clients during in-depth consultations. You'll also find them soaking in the latest training techniques with the most up-to-date technology. Their goal is to provide the safest, most effective treatments available. Whether it's injectables, laser services, feminine rejuvenation or Coolsculpting Elite, Meredith and Heather will deliver optimum results. Education is the key to growing!
