

MEREDITH HARRIS, MS, NP

New Life Aesthetics

June 2026 Newsletter

These results speak for themselves! A beautiful, natural-looking restoration is all about balance and strategic placement. Meredith focused on mid and lower face restoration using the advanced MD Codes techniques. She used the lifting approach to create a more refreshed and youthful appearance. By restoring structure and support in the cheeks and jawline, Meredith created soft, natural results. Juvéderm Voluma was used to restore volume and lift through the cheeks, while Juvéderm Volux helped define and contour the jawline for a more sculpted appearance. To complete the transformation, Juvéderm Vollure was used to soften the smile lines. This created a smooth, polished finish. Dermal Fillers

Sunshine boosts your mood, but Vitamin C helps save your skin! This month take advantage of 20% OFF all Vitamin C products, including Anti-Ox CE Fe, Super C+ Cream, and C Bright Cream. Vitamin C is one of the most powerful antioxidants you can add to your skincare routine. It helps to protect the skin from environmental damage, brighten uneven skin tone, improve collagen production, and reverse the appearance of fine lines and dullness. Adding antioxidants to your daily regimen will defend your skin against free radicals caused by sun exposure and pollution. These contribute to premature aging. Whether you're looking for a brighter glow, smoother texture, or healthier-looking skin, our Vitamin C products are a perfect addition to your routine. We ship all of our products and offer complimentary skincare consultations to all existing patients. Call today at 919-521-8282.

Vitamin C Skincare

Acne Awareness Month

Clear skin is more than a trend, it's a huge confidence boost! June is Acne Awareness Month and New Life Aesthetics is here to help you take control of breakouts with personalized solutions. These are designed for every age and skin type. Acne is one of the most common conditions we treat, from teenage acne to adult hormonal breakouts, inflammation, and acne scarring. We offer advanced treatments including medical-grade skincare, Forever Clear BBL™, Aerolase®, SkinPen® Microneedling, customized facials, and chemical peels. These help reduce acne, improve skin texture, and restore confidence. We also offer MRT (Mediator Release Testing), which can help identify foods that may be contributing to inflammation and affecting your skin health. With a customized approach and expert care, our team is committed to helping you achieve clearer, healthier skin all year long. Call today for your appointment at 919-521-8282 or book online at newlifeaesthetics.com.

Even when you feel your best, dark circles and hollowing under the eyes can make you look tired. This beautiful under-eye transformation was achieved with a customized combination of Juvéderm Vollure and PDGF-BB treatments. Meredith restored support to the upper cheek area with Vollure and stimulated rejuvenation with PDGF-BB. The result is a brighter, smoother, and more refreshed appearance without looking overdone. This personalized treatment helped soften the appearance of dark circles and improve the transition from the cheek to the under-eye area. The treatment plan included an initial same-day Vollure and PDGF-BB treatment followed by a second PDGF-BB session one month later. Often, the most beautiful and natural results come from a layered approach. This helps restore facial support while improving skin quality over time. Call today for your appointment at 919-521-8282 or book online at newlifeaesthetics.com.

Eye Revival

Wheels Turning

Let's make a "pawsitive" change this month! New Life Aesthetics is on a mission to help keep tails wagging by supporting DEGA Mobile Veterinary Care. Their mobile veterinary unit rolls into communities where access to care is limited, bringing kindness, comfort, and critical medical services to pets who need it most. From a puppy's first check-up to helping a senior cat receive much needed care, their work makes life changing impacts every day. Join us in helping to keep the wheels turning! Just click the link below to donate or support this incredible mission.
